TypeScript | React.js | Next.js | Node.js | Tailwind CSS | Bootstrap | REST | Supabase | Fabric.js | Git | Vercel | APIs | SEO | Figma | UX/UI | Responsive Design | Accessibility

PROFESSIONAL EXPERIENCE

Hunter Fitness – Frontend Engineer Freelancer

Fev 2026 – Mar 2026 Remote

React.js, Next.js, JavaScript, Tailwind, SEO

Personal training business focused on helping clients improve strength, fitness, and overall health through personalized training programs and coaching.

- Developed and launched a modern, responsive website using React.js and Next.js, improving UX/UI to enhance customer engagement and conversions.
- Optimized page load performance through frontend best practices and Next.js optimizations, improving overall user experience and SEO performance.
- Implemented SEO strategies that increased website visibility, reaching the 7th position in Google search results for relevant keywords.
- Optimized the company's Google Business profile, helping the business rank among the top 5 local results.
- Contributed to a 50% increase in new customers and sales by improving the company's online presence and website usability.

Peter's House Ltd – Frontend Engineer Freelancer

Oct 2025 – Nov 2025 Remote

React.js, Next.js, TypeScript, JavaScript, Tailwind, Figma, Supabase, Webstudio

Sanctifyr is a no-code dashboard that enables parishes to easily create and manage their own websites.

- Built a scalable multi-tenant CMS powering 50+ parish websites with real-time content updates.
- Designed a clean, modular UI system that improved maintainability and accelerated page-building workflows for non-technical users.
- Defined information architecture and role-based permissions, reducing content management errors and improving admin usability.
- Communicated project progress directly with the client and consistently delivered milestones on schedule.

SmallChess – Frontend Engineer Intern

Jun 2025 – Sep 2025 Remote

React.js, Next.js, TypeScript, JavaScript, Tailwind, HTML, CSS, Figma

An open-source educational platform focused on AI-powered chess tools and strategy training.

- Improved layout consistency and UI reliability by developing and refactoring reusable components across the platform.
- Transformed Figma designs into high-quality, production-ready interfaces that enhanced usability and visual coherence.
- Collaborated with two backend engineers to integrate APIs seamlessly, improving data flow and reducing frontend issues.
- Resolved UI bugs across the product line, increasing platform stability and user satisfaction.
- Contributed to feature planning and worked effectively within a cross-functional team, ensuring timely delivery of releases.

Stellar Futures - Frontend Developer Intern

Jul 2024 – May 2025 | Canada - Remote

Next.js, React.js, JavaScript, HTML, CSS, Tailwind

A startup company focused on climate change adaptation and emergency management, specializing in developing a new climate hazard forecasting and warning Software as a Service (SaaS) initiative.

- Led the end-to-end development of the company website, improving accessibility and user engagement.
- Increased organic traffic by 15% through SEO improvements and reduced load time from 5.2s to 2.1s through performance optimization.
- Built reusable components and interactive UI elements that strengthened mobile usability and user retention.
- Implemented full Spanish translate, expanding accessibility and audience reach.
- Contributed to early product architecture discussions, influencing UI/UX and feature planning for the climate hazard platform.
